# PVC Sliding Doors Benefits

Commercial Insulating Glass offers sliding doors built from high quality aluminum and composite materials for cooler & non-cooler applications.

## Heavy Duty Handles

Heavy duty handles are a required component for any slider.

Commercial Insulating Glass sliders are built from high quality composite for maximum strength and longevity of our handles.

## Metal Corner Key

Metal corner keys are a very important feature allowing a significant strength and rigidity to the frame even before installing the solid pvc panels or glass packs.

Metal corner keys are a unique feature of Commercial Insulating Glass.

## Robust Door Stop

Built using stainless steel components door stops allow you to stop your doors and reduce door closing shocks.

Door stops are standard.
